

### Payment Processing Performance for NICS Departments

In November 2008 the Minister for Finance and Personnel announced that NICS departments had been set a target to pay valid invoices within **10 working days**. Since then, Account NI has taken steps to minimise invoice processing times, with invoices being paid once they have been fully authorised and quality assured by departmental officials. The table below shows the performance of each department against this target for the month of **April 2011**. The figures reflect invoices received from suppliers, including utility bills and construction-related invoices for the Central Procurement Directorate's Works Order Processing System (WOPS).
